## EDUCATION

**Bachelor of Engineering**
Bangalore Institute of Technology
*2020 - Present*                                    *8.37 GPA*

**Karnataka State Board - Class 12**
Deeksha Centre for Learning
*2018 - 2020*                                        *78%*

**ICSE - Class 10**
Innisfree House School
*2005 - 2018*                                        *90%*

## SKILLS

C   C++   Java   Python   SQL   Linux

HTML   React   CSS

## PERSONAL PROJECTS

**File Management System with Search Engine**
- Designed and implemented a system to sort files in a given folder based on their extension. Sorted files can be searched for using an intuitive GUI based search engine built using the ncurses C library.

**On-The-Go Rental Management System**
- Designed a On-The-Go Rental System using which users can book a vehicle on the spot with ease. The app was built using Django and MySQL for the backend and Bootstrap for the front end.

**Potfolio Website**
- Designed a portfolio website containing personal and contact details with front end written using React and CSS.

**Car Lane Detector**
- Programmed a car lane detector using python libraries numpy and opencv

## LANGUAGES

**English**
*Native or Bilingual Proficiency*

**Kannada**
*Native or Bilingual Proficiency*

**Hindi**
*Full Professional Proficiency*

## INTERESTS

Passionate musician who has been playing the piano and harmonica for the last 4 years. My interest in music has allowed me to be the president of the college band which has performed in multiple events such as Manthan Battle of Bands and VTU Fest.

Avid reader of English fiction and sci-fi novels by authors such as George Orwell and Mary Shelly.

Eager sports player who has played table tennis at the state level for club and school.
